

INTRODUCING OUR NEXT-GENERATION EVIDENCE STORAGE SOLUTION

ELEVATE YOUR CHAIN OF CUSTODY DISCIPLINE WITH OUR CUTTING-EDGE SYSTEM

Introducing a game-changing new storage solution that seamlessly integrates Spacesaver's ActivRAC® Mobile Shelving System with an Automated Storage & Retrieval System (ASRS) by HAI Robotics. ActivRAC's innovative design eliminates fixed aisles, effectively doubling your storage capacity within the same footprint. This feature is particularly beneficial for evidence storage facilities facing space constraints, enabling them to optimize their storage space while maintaining accessibility and organization. Pairing ActivRAC's space-saving capabilities with the efficiency and automation of the HAI Robotics ASRS, creates an ideal unified solution that offers unparalleled storage density, security, and accessibility. Experience the future of evidence storage today with a solution that truly maximizes space utilization without compromising on efficiency or security.

HAI ROBOTICS

Spacesaver®

Enhance security, preserve integrity, and maximize efficiency with our state-of-the-art evidence storage system

1

ENHANCED CHAIN OF CUSTODY DISCIPLINE

Ensure the integrity and security of your evidence with our advanced storage solution. Our system is designed to increase chain of custody discipline, providing a clear and traceable record of every interaction with the evidence, from intake to retrieval.

2

SECURE AREA – ROBOTS ONLY

Say goodbye to unauthorized access and human error. Our storage facility boasts a secure area accessible only by robots, minimizing the risk of tampering or mishandling. Rest assured that your evidence is safeguarded by the latest in automated security technology.

3

CUSTOMIZABLE TEMPERATURE CONTROL

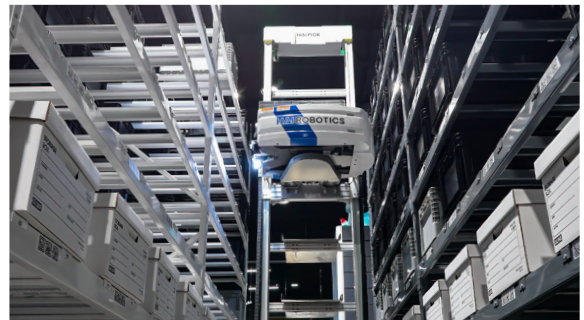

Preserve the integrity of temperature-sensitive evidence with our multi-temperature rooms. From standard storage conditions to specialized environments as low as 34 degrees Fahrenheit, our system ensures that each item is stored under optimal conditions for maximum longevity.

4

MAXIMIZE CEILING HEIGHT UTILIZATION

Expand your storage capacity without expanding your facility's footprint. Our solution maximizes ceiling height utilization, allowing you to grow your storage facility vertically instead of horizontally. Say goodbye to space constraints and hello to scalable storage options!
